-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Status of Application, Amendments and/or Claims

The preliminary amendment of 4/16/08 has been entered in full. Claim 7 is canceled. Claim 9 is amended.

Claims 1-6, 8 and 9 are pending in the instant application.

Note

Claim 5 recites "Use of a modulator ... as an agent to reduce the retention of atherogenic lipoproteins in atherogenesis and thereby preventing or treating atherosclerosis". This claim has been interpreted as a method of using a modulator to treat atherosclerosis.

Claim 8 recites "Use of an agent ... in preparation of a medicament ..." This claim has been interpreted as a method of making a medicament comprising a modulator of the binding of CEL to a receptor.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1, 2 and 4, drawn to a method of identifying a compound that modulates the binding of CEL (carboxylester lipase) to a receptor.

Group II, claims 3, 5, 6, drawn to a method of treating atherosclerosis using a modulator of the binding of CEL to a receptor.

Group III, claim 8, drawn to a method of making a medicament comprising a modulator of the binding of CEL to a receptor.

Group IV, claim 9, drawn to a method of preparing a composition comprising identifying an agent useful for reducing retention of atherogenic lipoproteins in atherogenesis and mixing the agent with an excipient.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Pursuant to 37 C.F.R. 1.475 (B-D), the ISA/US considers that where multiple products and processes are claimed, the main invention shall consist of the first invention of the category first mentioned in the claims and the first recited invention of each of the other categories related thereto. Accordingly, the main invention (Group I) comprises the first method, a method of identifying a compound that modulates the binding of CEL (carboxylester lipase) to a receptor. No product inventions are claimed. Therefore, the other Groups consist of the other recited method Groups. Groups II-IV do not share the same or corresponding technical feature with Group I or each other because the methods of Groups I-IV are not coextensive, each of the methods having different method steps and goals. Lack of unity is shown because these methods lack a common utility which is based upon a common structural feature which has been identified as the basis for that common utility.

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zachary C. Howard whose telephone number is 571-272-2877. The examiner can normally be reached on M-F 9:30 AM - 6:00 PM.
